1 November 1967

MEMORANDUM FOR: See Distribution

ATTENTION : Staff/Division Cover Officer

SUBJECT : Inventory of Foreign Funding Requirements

1. In conformance with the Katzenbach Committee Policy guidelines, no large scale non-commercial funding of Agency projects will be possible from funding mechanisms located in the United States after 31 December 1967. This will require the establishment of additional funding mechanisms abroad. At the present time, there exists no overall inventory of current funding requirements of this nature. Consequently, it is not possible to proceed with meaningful planning for the type, number and location of such additional non-commercial funding mechanisms abroad.

2. It is, therefore, requested that each addressee provide the Central Cover Staff (CCS) with an inventory of those projects which require attributable non-commercial funding. This listing should include:

a. The project cryptonym;

b. The amount of the current approved yearly budget, the current approval period, and a statement whether the budget is expected to increase or decrease substantially (25% or more) over the next three years;

c. Categorization of the budget into portions:

- (1) which can be securely passed by sterile means without a stated source,
- (2) which require nominal attribution for internal bookkeeping only, and

(3) which require externally citable attribution;

d. A brief description of logical funding sources on which nominal and externally citable attribution could be based;

e. The geographic area(s) where such funding sources should preferably be located; and

f. The funding schedule.

3. It is further requested that each addressee forward his reply to the Central Cover Staff not later than 20 November 1967. Negative reports are required. Any questions in connection with the above should be addressed to the undersigned on extensions 5138, 5139 and red 1153.
